Dear Applicant:

The staff has under consideration the above-captioned application for a construction permit to modify AM broadcast station KWHI(AM) to change daytime transmitter location and increase daytime power from 1 kilowatt to 10 kilowatts.

An engineering review of the application, as amended on November 23, 2004, reveals that the proposed daytime 0.5 mV/m and 0.025 mV/m groundwave contours would respectively overlap the 0.025 mV/m and 0.5 mV/m contours of co-channel station WODT(AM), New Orleans, Louisiana; and the proposed 0.5 mV/m and 0.25 mV/m contours would respectively overlap the 0.25 mV/m and 0.5 mV/m contours of first-adjacent channel stations KJEF(AM), Jennings, Louisiana, and KRGE(AM), Weslaco, Texas, in violation of Section 73.37(a) of the Commission's rules (See attached exhibits). In addition, site photos, and vertical towers sketch of the proposed antenna must be provided.

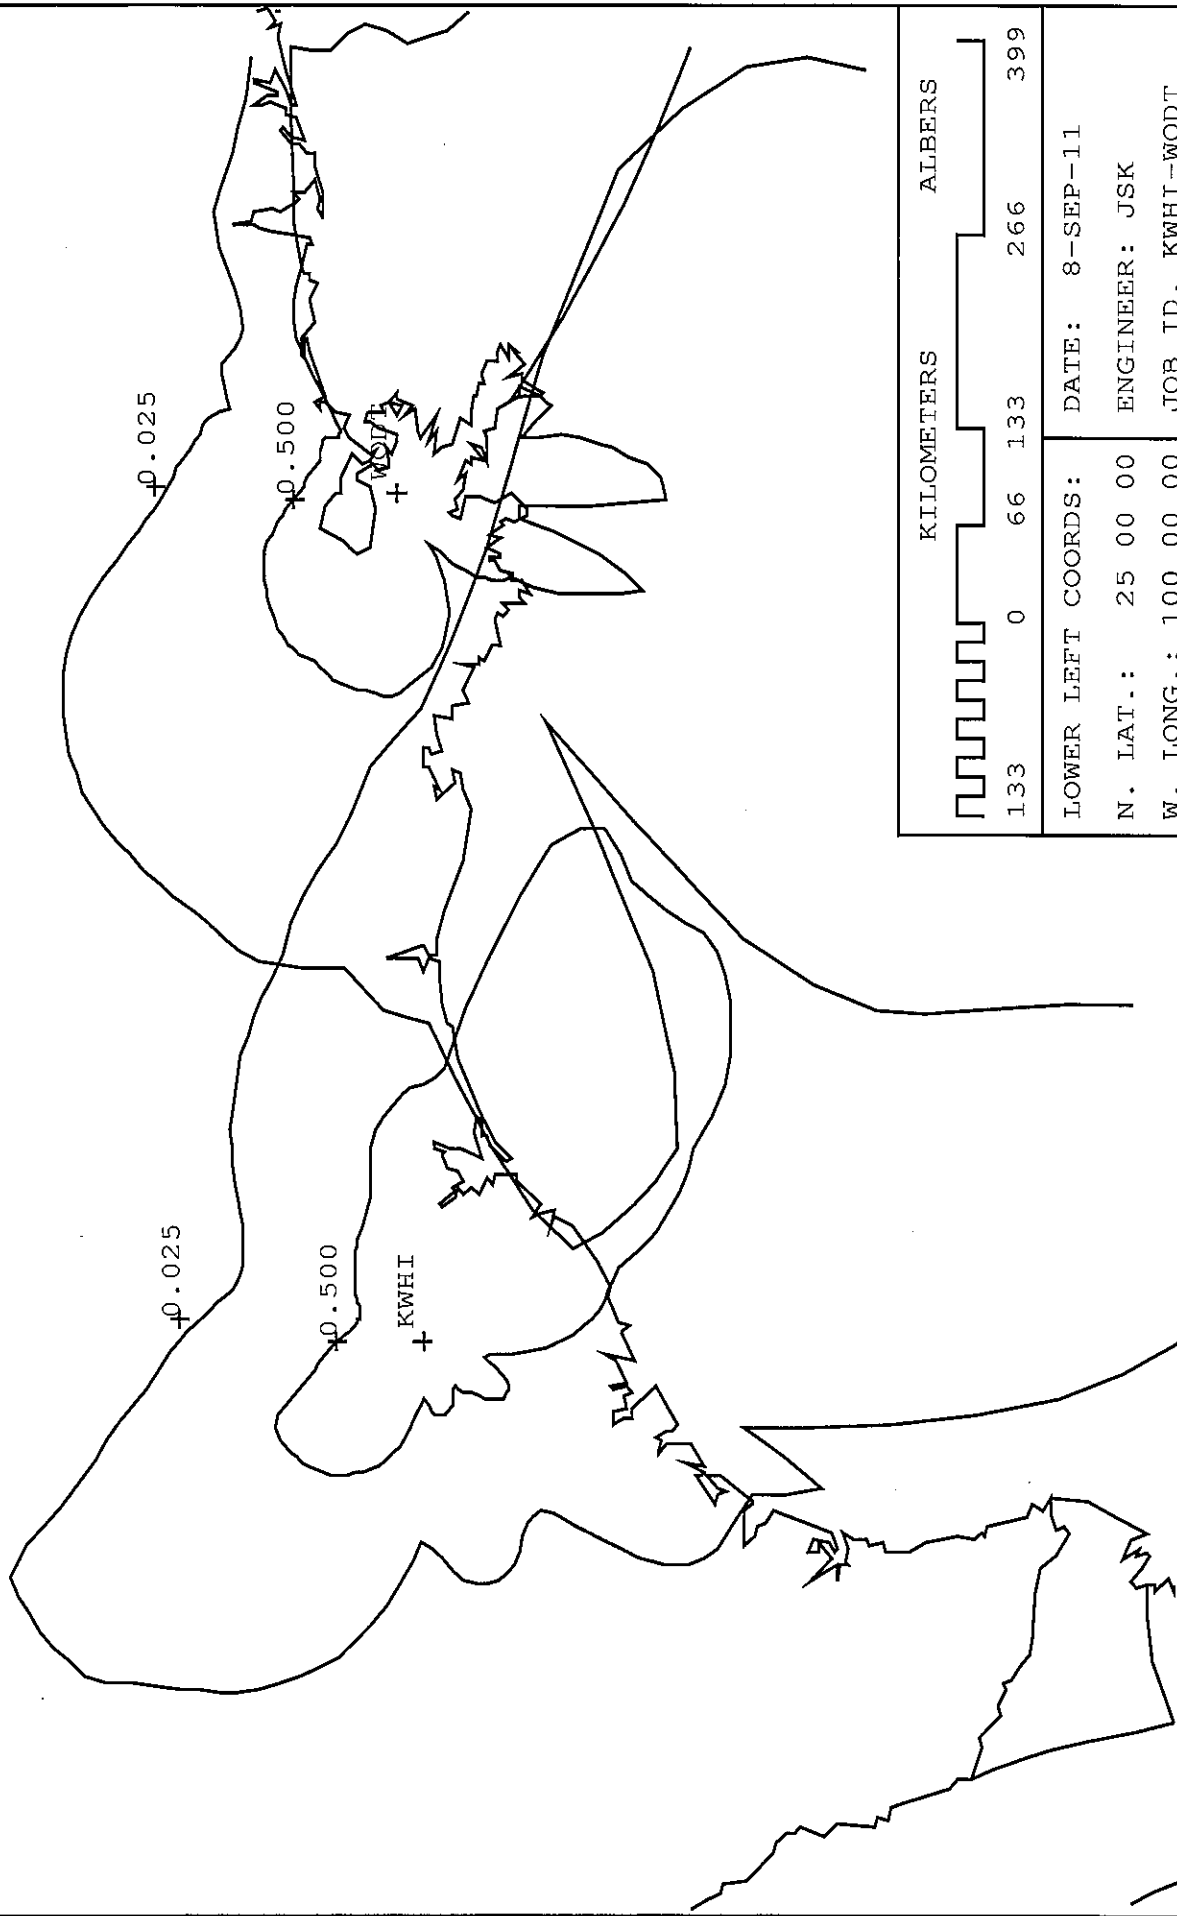

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to submit an amendment. Failure to amend or respond within this time period will result in the dismissal of the application pursuant to Section 73.3568. Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

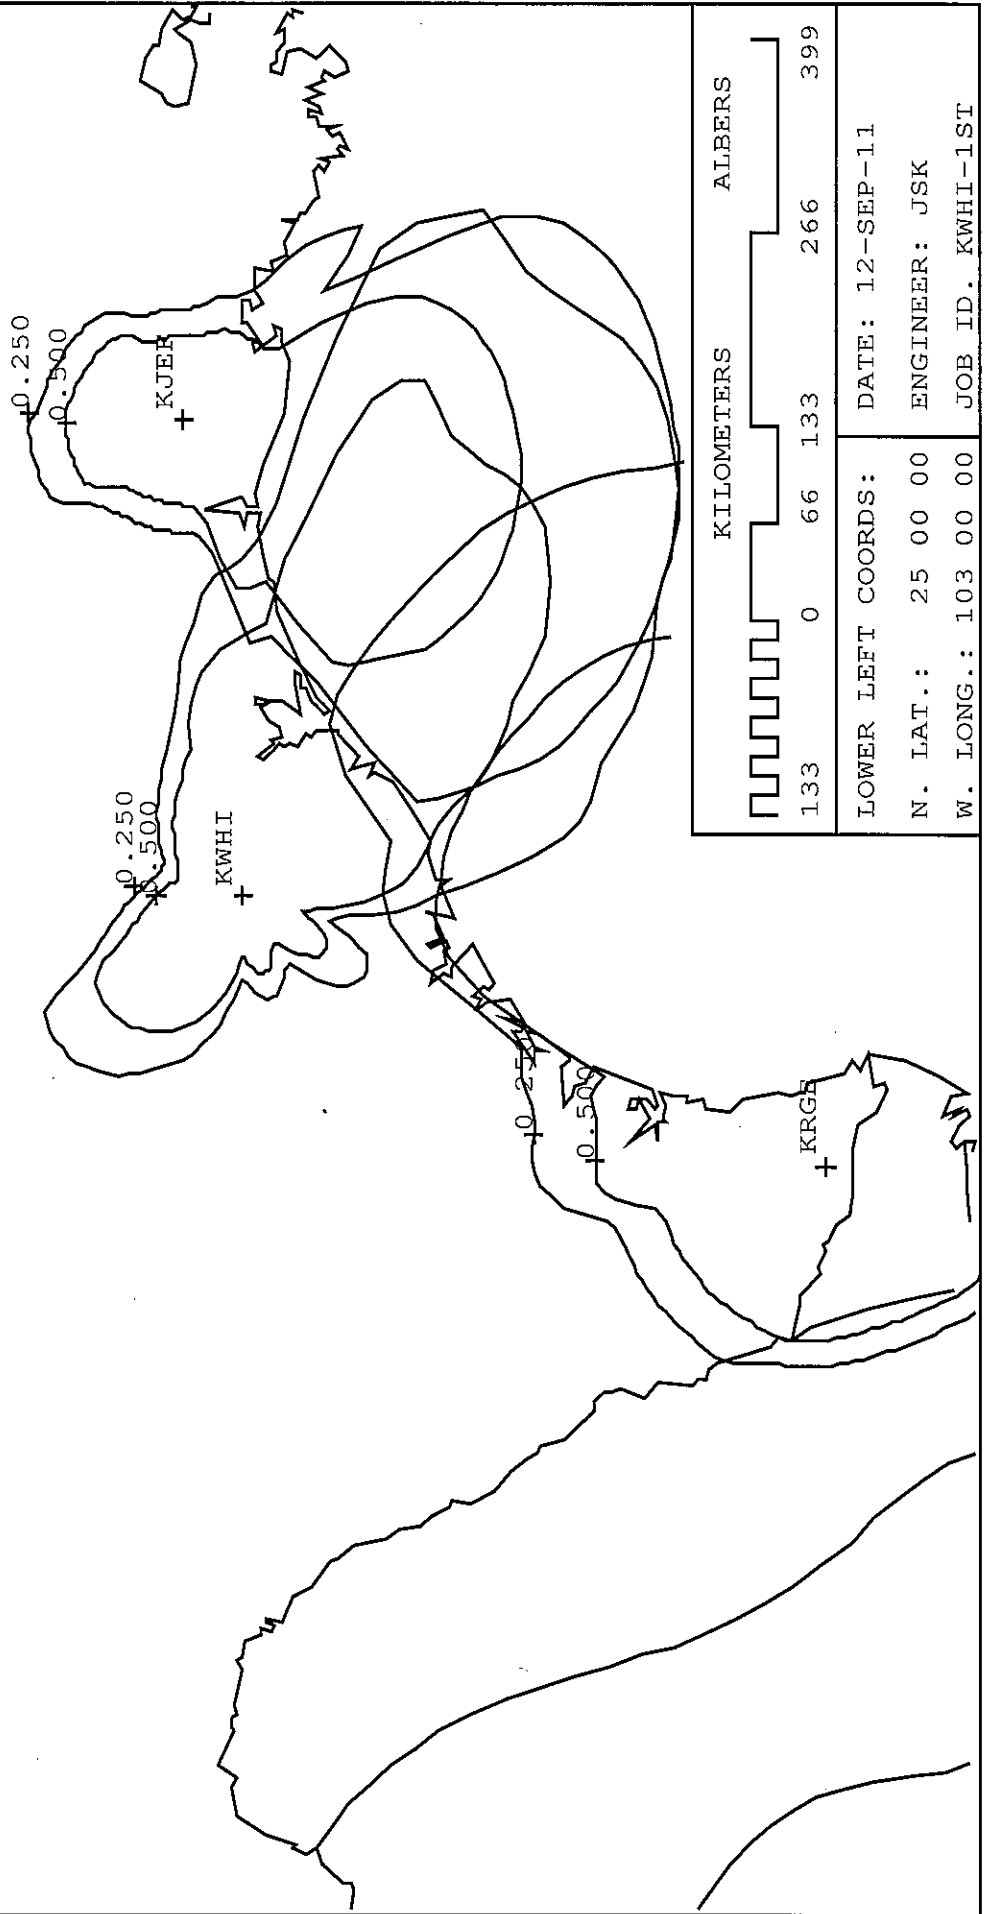

Son Nguyen
